EDUCATION

GNVQ ICT / BTEC First Diploma ICT System Support

South Devon College
Jul - 2005

GNVQ - IT

South Devon College
Aug - 2004

Experience working in a fast-paced Agile team & independently, I get a large sense of satisfaction being involved in testable, well organised, scaling projects. Being a fast learner, I enjoy picking up new technologies & design patterns. With a learning curve that never stops, I strive to develop myself - as well as applications!

RECENT WORK

Front-end React / Javascript Developer Funeral Guide

Working on a large scale React application **Arranger** (Funeral arrangement software). The role involves working in sprints to develop features along side the QA, design, dev-ops & back-end teams, occasionally being involved in back-end tasks.

March 2019 - Feb 2020

- Working in an Agile team
- Fast paced development of features
- Heavy usage of React + Redux
- Sprint planning / Retro / Scrums
- Writing scalable / maintainable code
- Regular use of GIT amongst the team
- Delivering regular software releases
- Working from designs & domain models
- Test Driven Development
- Domain Driven Design

Full-stack Web Developer MDR Web Solutions

Providing full stack web solutions to various businesses in & around Devon. Being self employed I carried a large sense of responsibility & motivation.

Nov 2016 - March 2019

- Responsive Wordpress theme & plugin development
- Web applications such as: Booking calendars, ordering systems
- Business / e commerce website development & maintenance
- REST API's & database management
- Graphic design & UX implementation
- UX planning / wire-framing of websites
- SEO maintenance

Graphic & Web Design Signs Of Life

A self made small business with 2 full time employees creating graphics & website designs for various companies. Primarily an online driven business.

Oct 2013 - Oct 2016

- Creating branded website designs / wireframes / improvements
- Vector based graphics for printable signs / brochures / shops
- Management of a small sized team
